TO SURPRISE HER
in a pleasant way just come in here some time before Christmas, the sooner the better, and select five or ten dollars worth of goods from our fine stock of Hardware and Household Goods. A present of this kind will please the wife better than a new bonnet. The latter will go out of style, but these things will never become unfashionable and never wear out. Anything from our store will be useful.

Mason & Wall Company

W. H. EDMONDSON, Manager.

Phone No. 9.

119 North Beach Street.

WE ARE RECEIVING DAILY

NEW FURNITURE of all kinds. We take pleasure in showing goods and quoting you our remarkably low prices.

Bingham & Maley.

A SURE SIGN

of Christmas is the number of private conferences between different members of the family. Now suppose when the subject of **Men's Goods** comes up you consult us. We can give you some pointers that will surprise you. We can show you how to make your money go farther for good presents than you thought possible.

The Globe,

Phone No. 64, DAYTONA, FLA.

Only the Best Groceries

Are the kind we handle. Our prices are as low as is consistent with high grade articles. Dried Peaches, Apples and Apricots, 15 cents.

S. W. CARROLL,
The Grocer.

LEADING EVENTS OF THE YEAR.

The Ormond-Daytona Beach Races
The Greatest Events of the Year in an Automobile Way.

The Ormond-Daytona Beach races in Florida are the leading automobile events of the year and easily overshadow every other function in an automobile way. The winter races which are scheduled for January 23rd to 28th inclusive, constitute the third annual tournament and will, as heretofore, be given under the auspices of the Florida East Coast Automobile Association.

The Ormond-Daytona beach as a speed course, has no equal in the world. Possibly for centuries this tide rolled beach has been fit for a race by the gods, but it was only three years ago that it was brought to the attention of the automobile fraternity. W. J. Morgan of the Automobile Magazine of New York went to Florida then, and after having looked the beach over, decided to give the tournament. In less than thirty days, a small affair as compared with that of last winter, was successfully run off. Many have asked what makes this particular beach so level, smooth and hard. Several things go to make it so.

The geologist accounts for its unequalled condition by the presence of a small shell known as the coquina being found in great abundance on the beach. When this shell disintegrates it combines with the sand, and its lime-like properties cement the entire beach. As an evidence of how perfect the beach surface is, a three ton bus with corrugated tires scarcely leaves a mark on its surface, so it is no wonder that W. K. Vanderbilt, Jr., last winter was enabled to travel a mile of the sands in thirty-nine seconds.

The leading drivers of the world will take part in the January tournament. Mr. Vanderbilt, who still holds the mile record, fearing that some other motorist may take the coveted honor away from him, has ordered another exceedingly fast machine capable of developing 50 H. P. more than the monster he used last winter. It is freely predicted that at least four seconds will be clipped off the mile and this means that the driver who succeeds in doing this will have to cover nearly 200 yards more in the mile than did Mr. Vanderbilt.

Drivers from every point of the United States and Europe are getting ready to go to Florida, and it will be a battle of giants when they meet on the famous course in January.

W. K. Vanderbilt, Jr., with his usual progressive sportsmanship, has offered a beautiful trophy for a hundred mile race, in which it is expected all records for this and intermediate distances will be beaten. Every country will be represented and the races for the costly International Cup presented by Sir

Thomas Dewar, M. P., of London, who will be present, will be keen indeed. Colonel L. C. Weir, president of the Adams Express Company, has presented a magnificent trophy for a mile invitation race for amateurs who own and drive their own machines. C. G. Burgoyne, ex-president of the Association has presented a beautiful cup for a fifty mile race. Colonel R. C. Clowry, president of the Western Union Telegraph Company, an ardent admirer of automobiling has presented a prize, as have many other prominent people connected with the sport.

To convey men and machines, special passenger and freight trains will be run from New York at the conclusion of the automobile show in the Madison Square Gardens. These trains will arrive at Ormond-Daytona in time for the races. Entry blanks for the races and information will be furnished by W. J. Morgan, 116 Nassau St., New York.

BILIOUS COLIC PREVENTED.
Take a double dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy as soon as the first indication of the disease appears and a threatened attack may be ward off. Hundreds of people use the remedy in this way with perfect success. For sale by all druggists.

Florida's Industrial Resources
In reciting of the advantages and possibilities of Florida, the Jacksonville Times-Union says:

Within the last few years, millions have been made in Florida from lumber and naval stores. Up to the present time, these gains have been made almost entirely by our own people who had their eyes open to the advantages around them. Their success has tempted others, and now capital is coming from abroad for a share of what Florida offers. Time was when Florida was seeking capital. Now capital is seeking Florida. It is welcomed here, heartily welcomed, but we can now afford to await its coming.

We wish to see industries established in the State, that will carry our products to the finished state before they cross the line on their way to the consumer. There is a splendid field here for the manufacture of furniture and all kinds of finished products of wood. We have the raw material in abundance. Why pay transportation both ways? A furniture factory in Florida would have a greater advantage over one that would have to send a great distance for its raw material. The same would be true of a plant for manufacturing wagons, carriages or buggies.

Florida is the best State in the Union for fertilizer plants. They would pay well here. The cattle ranges of the State would make packing houses profitable, and they, in turn, would make the cattle ranges more profitable.

Oysters, fruits, vegetables are here in abundance—the foundations for the prosperity of coming industries.

So much for what our State offers combined capital or to the individual who has a large sum for investment. The State offers a field equally as good for the man of small means who only wishes to find a home where the struggle for success will yield greater results than in other states.

In no State in the Union has an acre of land yielded as large returns from vegetables as our growers have received. Oranges are coming back and now are well worth growing. Last week a shipment of Florida oranges sold for \$10 a box in Los Angeles. Other states and other countries can produce oranges, but Florida oranges are the best.

The sportsman's paradise, the homeseeker's ideal, the capitalist's best field for investment. Florida is fitted by nature for a leadership among the States of the Union, and her present rate of progress gives promise of a position among the first. She is now well down the column, but is pushing more rapidly than any of her sisters towards the front. Our state will soon be the home of diversified industries as it already is the abiding place of a prosperous people.

HEAD ABOUT TO BURST FROM SEVERE BILIOUS ATTACK.

"I had a severe bilious attack and felt like my head was about to burst when I got hold of a free sample of Chamberlain's Stomach and Liver Tablets. I took a dose of them after supper and the next day felt like a new man and have been feeling happy ever since," says Mr. J. W. Smith of Jullia, Texas. For biliousness, stomach troubles and constipation these tablets have no equal. Price 25 cents. For sale by all druggists.

Fine Bus for the Clarendon

Dr. E. L. Potter, the genial proprietor of the Clarendon has put on a new bus that easily lays over anything now in use at this place. The new bus is made in the Fifth Avenue New York, style and is one of the finest pieces of work ever turned out in Florida. The bus has a capacity for eighteen passengers, is handsomely furnished with six heavy plate glass drop sashes. The running gear is decorated in aluminum yellow, while the body is finished in black with a red panel. The vehicle was made for Dr. Potter by McMurray & Baker, of Jacksonville, who will soon turn out another for the use of the Clarendon.

Driven to Desperation

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at Atwood Pharmacy and J. M. Jones, druggist.
